

# Third Grade News

OCTOBER 29, 2014

*Lion King masks, favorite collections, and Rubik's Cubes were all a big hit!*

## Fall is Coming to an End!

Dear Parents,

I wanted to thank you all for attending your child's conference this year. The students did such a nice job, and I look forward to the spring conferences.

Tomorrow is our Fall Party. The theme is BEACH DAY. Your child can bring all things "Beachy," but please remember that recesses will be COLD! Abby, Isabella, and Wyett have volunteered to bring supplies.

We have started a big adventure in math this week: MULTIPLICATION! The students are learning about making rows, columns, and arrays along with equations, factors, and products. Ask your child if he/she can tell you about them.

In science, we are working on animal inspired technologies. We are making posters for the hallway. We are almost done with the unit.

In reading, we are almost through unit 2. We are working on possessive nouns.

I hope you enjoyed looking through your child's data notebook. Please return them by **Monday, November 3.**

Be sure to visit our webpage and Twitter site for updates!

Mr. Sammons

We had our Panther Pals come from UNI! We will be cheering for them!

### Lion King in May!

We are on track for our Lion King in May! We could still use 2 sponsors if you know somebody.
